

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 29, 31, 33-34, 36, 49, 52-55, 57-64, 69-70, 74-88 and 91 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As claim 19, line 18, claim 36, line 18, claim 49, line 13, claim 70, line 12, claim 85, line 12, claim 88, line 15, "the first communication device" is vague and indefinite because it does not refer to any previous element.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 29, 31, 33-34, 36, 70, 74-87 are rejected under 35 U.S.C. 101 because the claimed invention is direct to a device or apparatus which is a physical hardware. However, the body of the claims the applicant only recites element, block which are defined as the modules of software. This implies that Applicant is claiming software, per se, lacking the hardware necessary to realize any of the underlying functionality. Therefore, the claims invention directed to non-statutory subject matter as computer programs, per se, i.e. the descriptions or expressions of the programs, are not physical

"things." Therefore, the claims invention is direct to both statutory such as apparatus and software "process" as stated in the specification section 91.

Allowable Subject Matter

5. Claims 1, 6-11, 14, 19-21, 25-28, 37-42, 45-48 allowed.
